

BACK TO EMOTIONS

THE LUXURIOUS
LAYER OF
ARCHITECTURE

WE ARE
THE
LUXURIOUS
WE LIVE

It is the place where I collect fragments of stories.
It is where I laugh and where I cry.
It is the place of habit, of celebration,
work, rest, love, where everything
is slow and immediate.
It is mine and mine alone. It is every
object a little bit about me.
The place in which my passions
find their place by feeding
everyday life, making
life a place to discover
in a moment, every detail.
The place where I live and exist.
The place of happiness.

ARCHITECTURAL COLLECTIONS

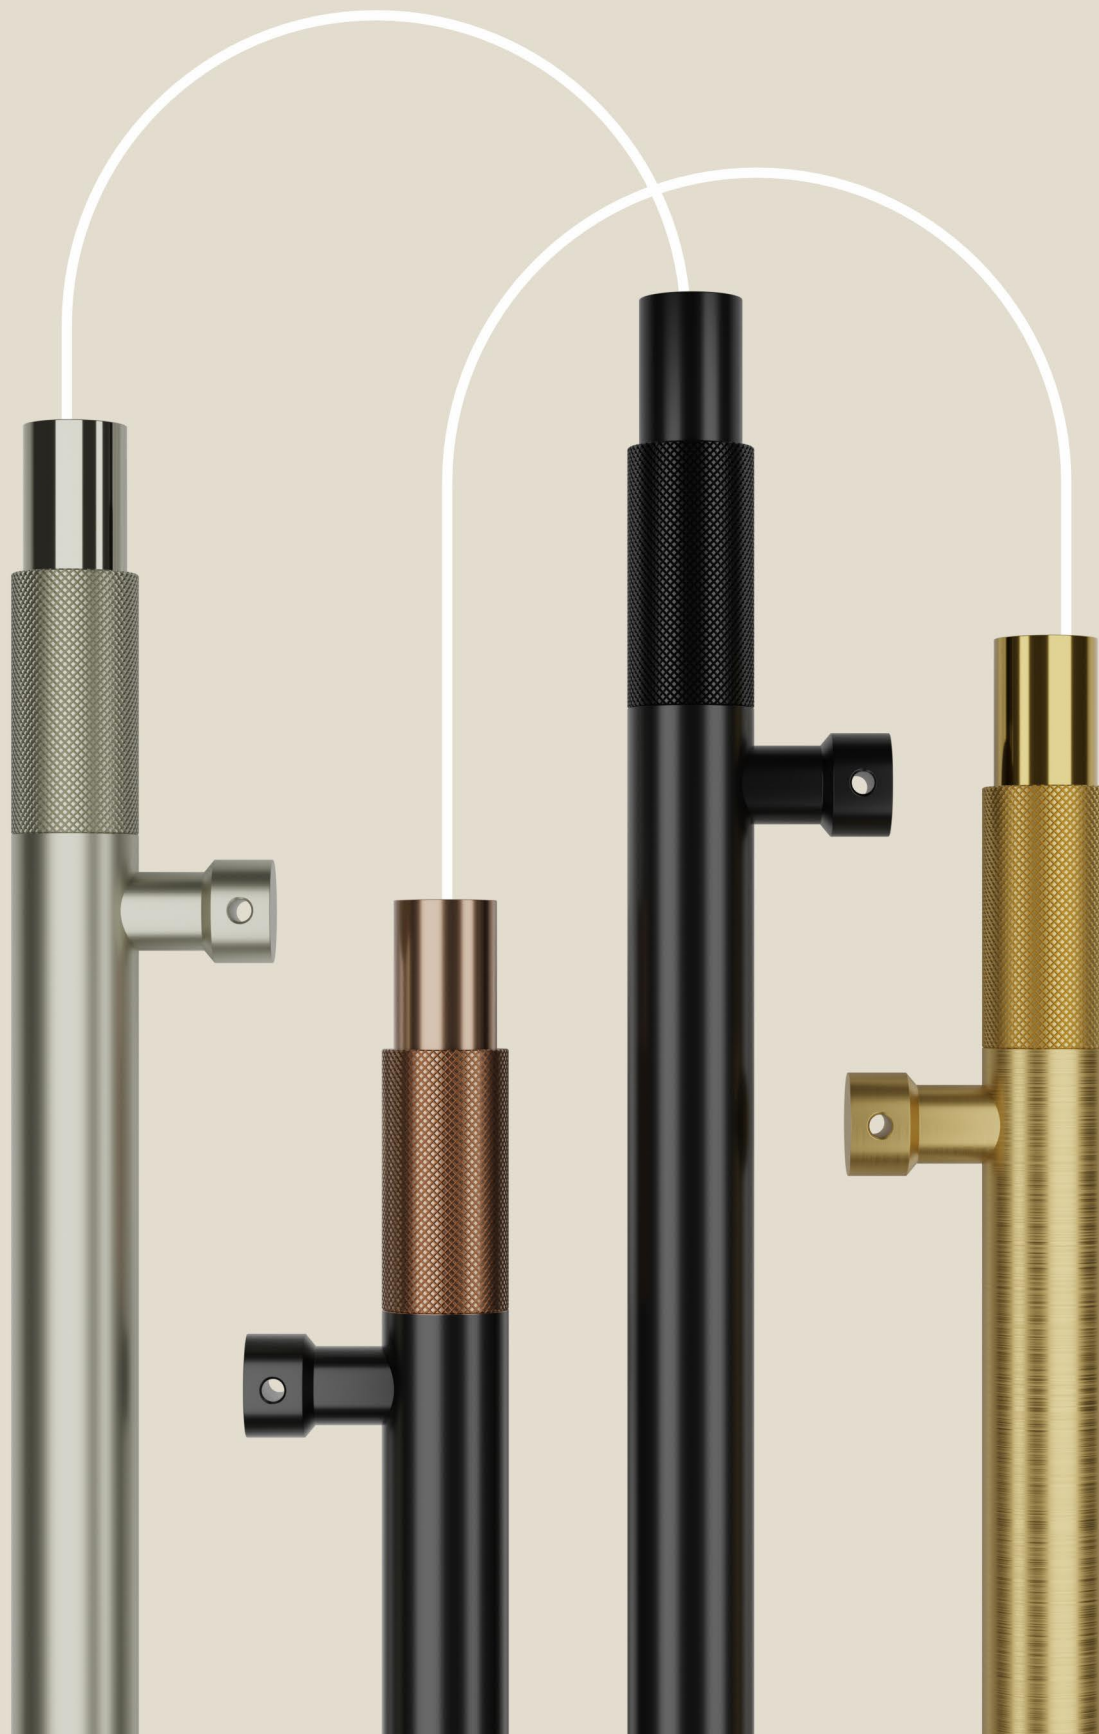

Redefining Modern Hardware

Austo are proud to present their range of architecturally designed quality, stylish door furniture and accessories. This hardware compliments the high standard of architectural homes in India.

Our discerning customers demand distinctive style and quality whilst looking for that 'point of difference'.

To meet and exceed this expectation we have created our 'Architectural Collections' range. Whether it be residential or commercial applications, Austo have provided complete solutions for more than 25 years.

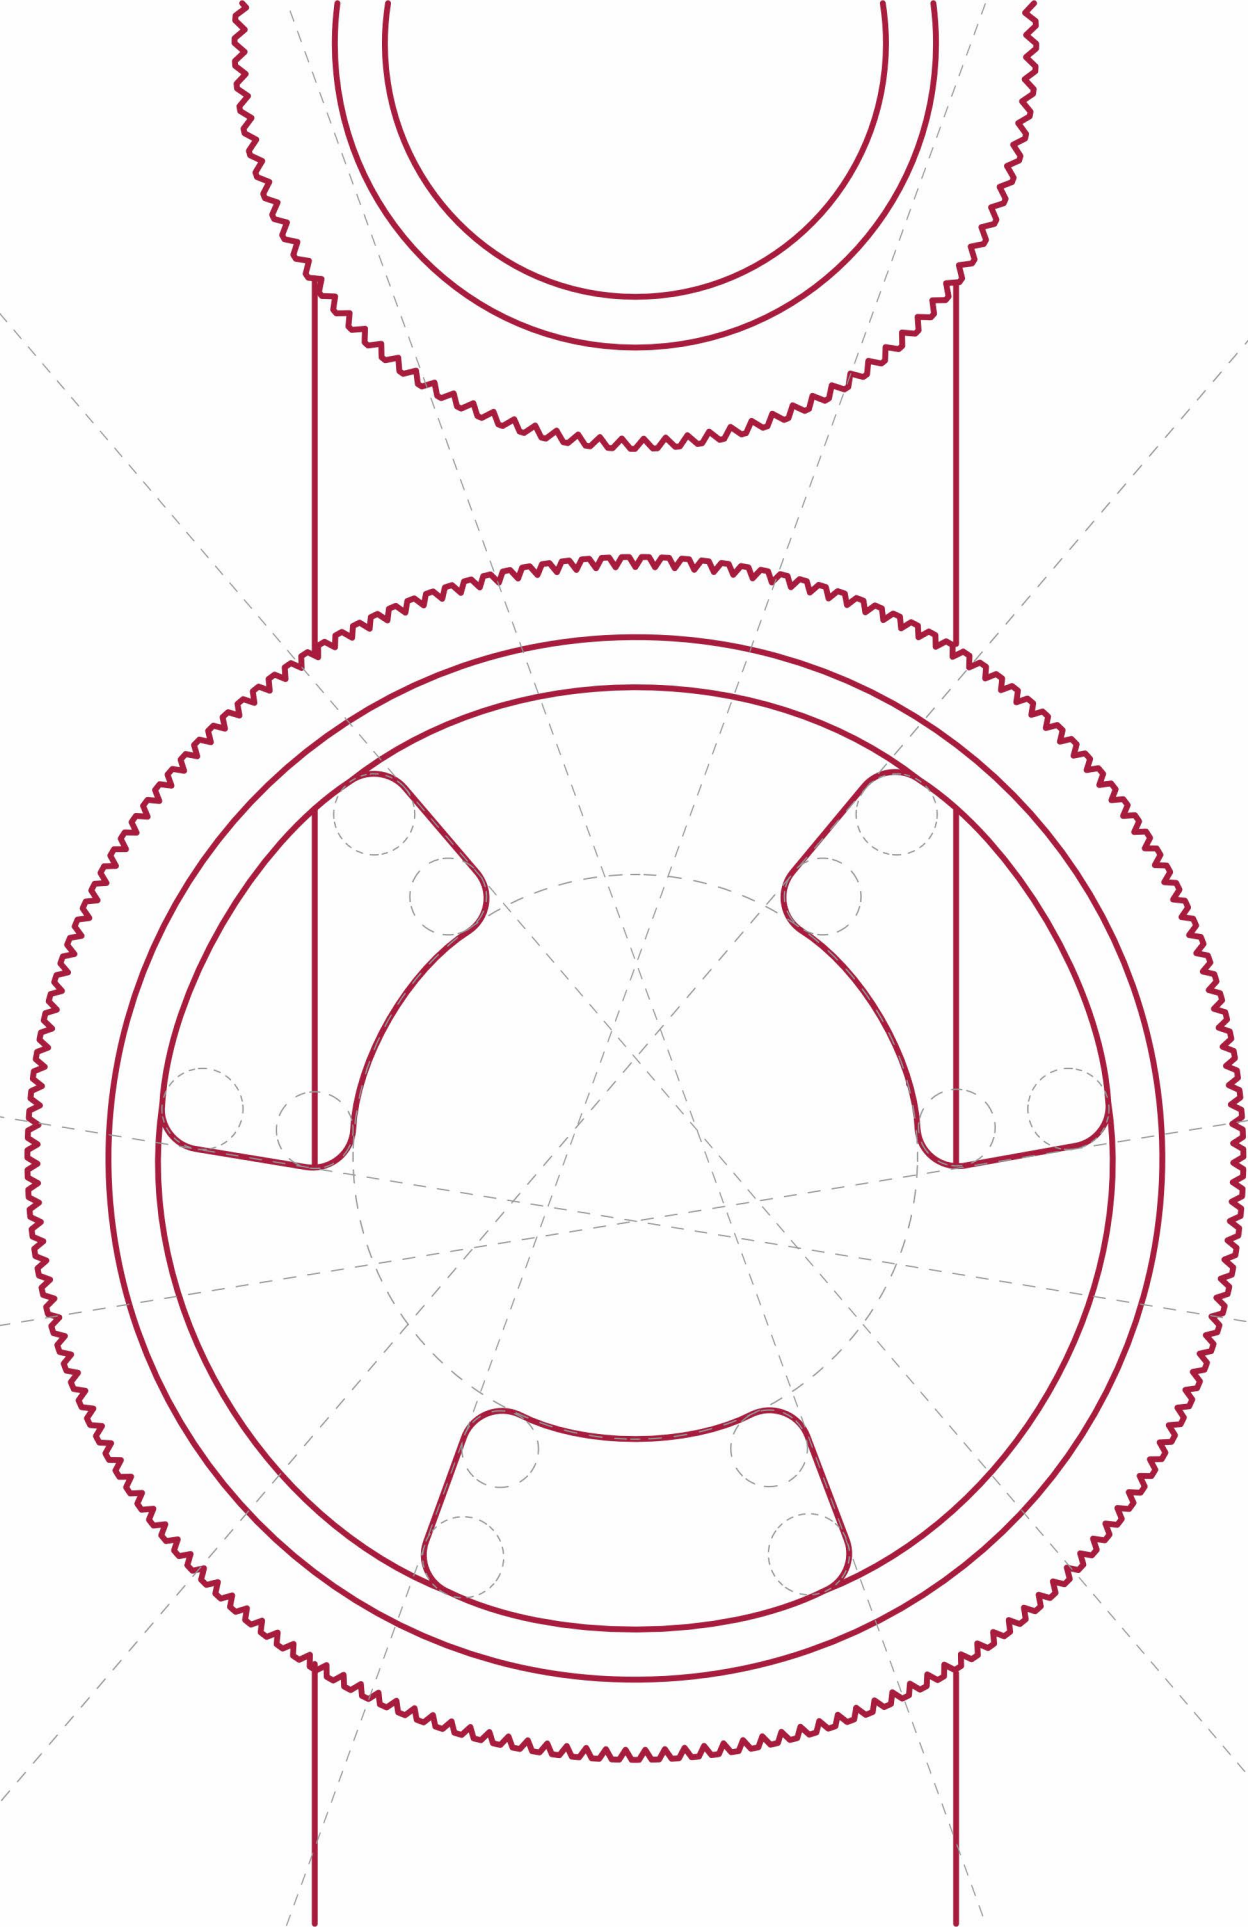

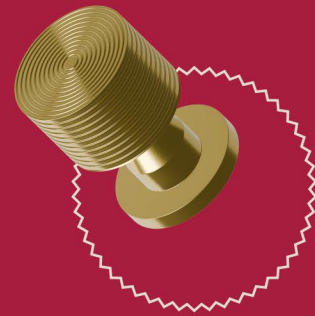

We invite you to peruse our range of high quality locally and internationally sourced hardware to create the finish and style you are seeking.

OUT STANDING DESIGNERS

Design for us means discovering beauty in everyday life. It's the imagination that turns into the hand that shapes and transforms even the most functional objects a creative act.

Our series of doors, Wellness products and furniture and kitchen accessories are born with the aim of combining aesthetics with high quality technology, Made in Italy and always attentive to the search for innovative solutions. We want to create unique and recognizable products but in which, at the same time, you can find yourself and be inspired. Your personality, the Austo style.

TOTAL LOOK OF PURE LUXURY

The brightest factor of a luxurious apartment is to live as a free-spirit in these spaces, surrounded by the warmth of classic tones and unusual details of color that create a dialectical synthesis in a highly original style.

Freedom is choosing unexpected combinations to create spaces with a strong personality: the personality of those who live in it.
